⚠ WARNING ⚠

- Note, an incorrect wiring of this product can damage it and lead to other hazards. Make sure the product has been correctly wired before turning the power ON.
- Before wiring, or removing/mounting the product, be sure to turn the power OFF. Failure to do so might cause electric shock.
- Do not touch electrically charged parts such as the power terminals. Doing so might cause electric shock.
- Do not disassemble the product. Doing so might cause electric shock or faulty operation.
- Use the product within the operating ranges recommended in the specification (temperature, humidity, voltage, shock, mounting direction, atmosphere etc.). Failure to do so might cause fire or faulty operation.
- Firmly tighten the wires to the terminal. Insufficient tightening of the wires to the terminal might cause fire.
- Do not place the monitor on the unstable place.
- Do not expose the monitor directly in the sunlight and other heat sources.
- Do not step on the power cord or make the power cord entwined.
- Clean the monitor with dry soft fabric (volatile matter not allowed).
- Do not contact with or be exposed to inappropriate temperatures, solvents, acid, water or moisture.
- Avoid the fragmentation, corrosion and any other damage to products or components (such as shell, LCD/LED panel, port, circuits etc.) caused by insect and mouse or any other things inserting.
- Please place it in a suitable location, such as mounted on the wall, hanging from the ceiling, and install it under the guidance of the professional.
